Roslyn has over 30 years of Regulatory Reimbursement and Payment experience and offers our clients expertise in a variety of healthcare provider reimbursement service areas. From her work with multiple national healthcare consulting firms, as well as with one of the Medicare Administrative Contractors (MAC), she offers a broad scope of regulatory reimbursement expertise.

Over the years, Roslyn has developed an in-depth knowledge of Medicare and Medicaid cost reporting and the significant impacts of these documents on the financial success of the organization. This knowledge includes the areas of Balance Sheet Third Party Reviews, Organ Acquisition Reviews, Disproportionate Share (DSH), Medical Education, Bad Debt Reimbursement, Wage Index Analysis, and Filing Appeals and Reopenings. Her accomplishments and experience include:

- Worked as an Audit Supervisor for a MAC, reviewing all of the Auditor work papers for adherence to Medicare and Medicaid reimbursement regulations.
- Reviewed and prepared preliminary and filed Medicare/Medicaid cost reports, including reimbursement analyses design to evaluate if operational practices are appropriately reflected in the cost report. Included work for hospital with medical education, disproportionate share, organ acquisition and ESRD.
- Reviewed organ acquisition for a large urban facility and identified additional Medicare organs to include in the count. The additional organs resulted in over \$2.5M additional reimbursement
- Served as the healthcare regulatory specialist for large accounting firm on financial statement audit engagements for Medicare and Medicaid third-party reserves
- Project Manager on a large healthcare engagement for the review and compilation of Medicare bad debts. The review involved four facilities which generated an additional \$5M in reimbursement to the client.
- Assisted hospitals with the preparation of position papers for submission to the Provider Reimbursement Review Board for Provider appeals.
- Speaker at external conferences on topics related to Medicare and Medicaid cost reporting as well as changes to those regulations.

Roslyn's expertise covers a wide range of strategic initiatives centered around the complexities of payment for all provider types and the use of the cost report as a tool for optimizing reimbursement. Her expertise includes Acute Care Hospitals, Psychiatric/Rehabilitation Hospitals, and Skilled Nursing Facilities.

Roslyn received her Masters of Healthcare Administration degree from St. Thomas University and her Bachelor of Science degree in Accounting from Florida State University. She is a Certified Healthcare Financial Professional (CHFP), and is active within the Healthcare Financial Management Association.
